

AARON TAGAPAN

IT Operations | Systems Administration | Business Technology | AI Automation

Los Baños, Laguna, Philippines | 0945 170 8774 | aarontagapan@gmail.com | linkedin.com/in/aaron-tagapan1 | github.com/Aaron840588

PROFESSIONAL SUMMARY

BS Information Systems graduate with a foundation in IT operations, systems administration, software development, and AI workflow automation. Completed a 486-hour MIS internship at Gardenia Bakeries Philippines supporting enterprise documentation, QA testing, process analysis, and system improvements. Hands-on experience developing SaaS applications, CRM platforms, and AI-powered automation solutions using Python, Google ADK, Gemini API, MCP, and cloud-based application platforms. Seeking opportunities in IT operations, technical support, systems analysis, application support, and business technology roles.

CORE COMPETENCIES

IT Operations • Technical Support • Systems Administration • Cloud Computing • Database Management
AI Workflow Automation • Quality Assurance Testing • Process Documentation • Problem Solving

TECHNICAL SKILLS

Cloud & Deployment: Firebase, Supabase, Vercel, REST API Deployment, Git, GitHub, CI/CD Fundamentals

Databases: PostgreSQL, Firebase Firestore, SQLite, Database Design, Data Modeling

Systems Administration: Windows 10/11 Administration, Linux Administration (Ubuntu, Kali Linux), Virtual Machines (VirtualBox), BIOS/UEFI Configuration, Hardware Diagnostics, Driver Management, PC Assembly

Programming: Python, Java, JavaScript, React, Next.js, FastAPI, HTML, CSS, PHP, Laravel

PROFESSIONAL EXPERIENCE

Business Analyst Intern — MIS Department | Gardenia Bakeries Philippines, Inc.

Bifan, Laguna | 486 Hours | December 2025 – March 2026

- Developed Functional Specification Documents (FSDs) for enterprise system enhancement projects by documenting business requirements, user stories, acceptance criteria, process flows, and system workflows.
- Analyzed existing business processes and translated stakeholder requirements into functional specifications for a Document Management System (DMS) integrated with Oracle E-Business Suite metadata.
- Supported QA testing and User Acceptance Testing (UAT) by creating test scenarios, validating OCR document extraction, documenting issues, and collaborating with technical and business stakeholders.

TECHNICAL PROJECTS

H+H Hub — Operations Management Platform (Next.js • FastAPI • Supabase (PostgreSQL) • Vercel) — 2026 - Present

- Architected and deployed a SaaS operations platform with role-based access control supporting inventory management, recipe costing, purchasing, customer management, and B2B consignment workflows.
- Designed database structures and business workflows to support operational processes.

AI Automation & Workflow Suite (Python • Google ADK • Gemini API • MCP) — 2026

- Developed modular AI agents and automation workflows using Python, Google ADK, Gemini API, and MCP for structured data extraction, transcription processing, natural language understanding, and business workflow automation.

Cloud Business Management Platform (React • Vite • Firebase Firestore • Vercel) — 2026

- Designed and deployed a client-facing CRM and business management web application for a local pet services business, implementing real-time appointment scheduling, customer billing, and Firebase Firestore database synchronization.

Kapit-Bisig / OK! Calamba – Capstone volunteer platform (Laravel/PHP • SQLite • Blade • Bootstrap 5) — 2024 – 2026

- Led systems analysis, event workflows, and functional documentation for an LGU volunteer management system capstone project, collaborating with the development team throughout planning.

CERTIFICATIONS & TRAINING

- Google Cloud Skills Boost: Agent Fundamentals, Google ADK, MLOps for Generative AI (2026)
- Anthropic: MCP Introduction, AI Fluency Framework (2026)
- AWS: Foundations of Prompt Engineering (2026)
- Microsoft: Generative AI Code Camp (2025)

EDUCATION

Bachelor of Science in Information Systems | National University – Laguna (Dean's Lister (Multiple Semesters)) — 2022 – 2026

TVL – ICT Strand (Senior High School) | STI College Calamba — 2019 – 2021
